

TK DEFENSE IS A FRENCH MANUFACTURER OF TACTICAL CARDBOARD AND FOAM SOLUTIONS, DEDICATED TO THE PROTECTION, SECURING, TRANSPORT, AND PACKAGING OF SENSITIVE EQUIPMENT.

TK DEFENSE

Specializing in spiral-wound cardboard tubes since 1953, **TK Defense** relies on its **EM2's** production site, located near Nantes (44), dedicated to containers and technical foams. This entity is part of the **TUPACK Group**, alongside **ALLPACK** (Paris) and **NEUVISTAC** (Lyon), whose site is specialized in pyrotechnic applications.

ENVIRONMENT

Designed using recycled and recyclable cardboard, TK Defense solutions combine **sustainable performance, robustness, and reliability for demanding applications.**

Committed to a responsible approach, TK Defense ensures the recycling of its waste and supports its clients in accessing appropriate recovery and recycling channels.

HIGH-PERFORMANCE PROTECTION AND PACKAGING SOLUTIONS

TK Defense develops technical cardboard and tactical foam solutions for the **protection, securing, and transport of sensitive equipment.**

- Winding supports for technical materials
- Cushioning and protection for critical parts and systems
- Custom secure packaging and containers
- Ammunition containers with machined foam inserts

Spiral-wound or straight tubes (1 to 18 mm), combined with technical foams, **ensuring strength, shock absorption, and optimal support.**

PERFORMANCE

TK Defense relies on proven processes to meet the **requirements of industrial and defense sectors.**

Through its dedicated R&D unit, TK Defense designs reliable, **high-performance, and tailor-made solutions**, positioning itself as a **trusted partner** committed to security and overall performance
